

1. General Information		
CR raised by: T2S Project Team	Institute: ECB	Date raised: 27/01/09
Change Request title: Technical acknowledgment of messages from directly connected T2S Actors		CR ref. no: T2S URD 158
Change Request Classification: Substance <i>(Typo, Consistency, Clarification, Substance)</i>		Status: Approved by AG
Change Type: Modification <i>(New Requirement/Modification/Deletion)</i>		Requestor Category: T2S Project Team <i>(User, 4CB, ECB T2S Project Team)</i>
Chapter Number/Annexe Number Chapter 13		Req No: (If applicable)
Priority (S,H,M,L): H		Proposed implementation date/Release:
Description of requested change: T2S does not foresee a technical acknowledgement of a message. Without a technical acknowledgement, a directly connected T2S Actor cannot determine whether T2S has received the message for processing.		
Reason for change and expected benefits/business case: A directly connected T2S Actor requires a technical acknowledgement to confirm whether T2S has received the message for processing.		
Submitted annexes / related documents:		
Proposed wording for the Change Request: A new requirement T2S.13.055 (Technical acknowledgment of messages) should be added to chapter 13 "T2S shall send a technical acknowledgement of a message after performing an authorisation check on that message it receives from a directly connected T2S Actor in application-to-application mode. T2S shall not perform technical or business validations on files or messages before sending the technical acknowledgement." T2S shall allow a T2S Actor to determine whether it wishes to receive technical acknowledgements through the message subscription service."		
Outcome of meetings: *SG Teleconference of 16 March 2009 Recommendation to AG for approval. *AG meeting on 25 March 2009 Approval of SG recommendation
