T2S CHANGE REQUEST FORM					
General Information (Origin of Request) □ User Requirements (URD) or GUI Business Functionality Document (BFD) ☑ Other User Functional or Technical Documentation (SYS)					
Request raised by: T2S PMG Request raised by: T2S PMG Date raised: 03/07/2021					
Request title: Add MS Edge to the list of supported browsers for U2A interaction Request title: T2S-0769-SYS					
Request type: Common Request type: Common				Urgency: Fast-track	
1. Legal/business importance parameter: High			2. Market implementation efforts parameter: Low		
3. Operational/Technical risk parameter: Low			4. Financial impact parameter: Medium-low		
Requestor Category: CSD / NCB Status: Implemented					

Reason for change and expected benefits/business motivation:

Microsoft Edge is a browser used in numerous organisations and can be seen as the successor of Internet Explorer 11 when IE11 is discontinued (same vendor). However, Edge is not included in the list of supported browsers for Directly Connected Actors to interact with T2S in U2A mode.

The absence of T2S support for MS Edge would force some DiCoAs to use Chrome or Firefox to interact with T2S in U2A mode, and thus potentially deviate from the general IT policy of their organisation. The expected benefit of this CR is to avoid such situations and thus minimise the need and costs for DiCoAs to design and implement custom setups on user end to access T2S.

Description of requested change:

Microsoft Edge (Chromium-based, first released on 15 January 2020) must be fully supported as a browser to access and perform actions in the T2S Graphical User Interfaces, including in all Common Components screens that are relevant to T2S users. For the specific aspect of U2A non-repudiation of origin, it is worth noting that the solution to be used for digital signature (Ascertia Go-Sign Desktop) supports MS Edge.

Edge support for the entire scope of the T2S GUI and the relevant common components screens is needed by the time Internet Explorer 11 can no longer be used to interact with the T2S GUI, i.e. T2S R6.0 (June 2022). This CR assumes that CR-722 will have been implemented beforehand. As a result, after the implementation of CR-769, the following browsers should be supported by the T2S GUI: Firefox, Chrome and MS Edge (Chromium-based). T2S shall <u>not</u> support MS Edge Legacy, i.e. the HTML-based browser launched with Windows 10 in July 2015, which used to be the default browser on Windows 10 PCs.

Proposed wording for the Change request:

ESMIG U2S Qualified Configurations Document

Ascertia GSD Single User Client (SU)
 1 Qualified configuration

NSP	SWIFT	SIA-COLT

Browser	Google Chrome 88+
	Firefox 78.9+
	Microsoft Edge 103.0.1264.77+

2.2.3 Go>Sign Desktop Client Requirements and post-installation remarks

2.2.4 Additional requirements

- 3. Ascertia GSD Multi User Client (MU)
 - 3.1 Qualified configuration

NSP	SWIFT	SIA-COLT
Browser	Google Chrome 88+	
	Firefox 78.9+	
	Microsoft Edge 103.0.1264.77+	

Documentation to be updated:

ESMIG U2A qualified configurations

High level description of Impact:

• • •

Outcome/Decisions:

*CRG on 07 July 2021: the CRG agreed to recommend CR-769 for authorization by the T2S Steering Level, following a fast-tracked approach.

* AMI-SeCo on 15 July 2021: the AMI-SeCo agreed with the CRG recommendation of CR-769 for T2S Steering Level authorisation

*CSG on 15 July 2021: the CSG agreed to authorise CR-769

*NECSG on 15 July 2021: the NECSG agreed to authorise CR-769

*PMG on 10 August 2021: the PMG agreed to launch the detailed assessment of CR-769 in view of R6.0

*MIB on 11 August 2021: the MIB agreed to authorise CR-769

*PMG on 13 September 2021: the PMG agreed to follow 4CB proposal to launch a preliminary assessment without performing a cross-service impact assessment. T2S (and CoCos) will be able to provide MS Edge as a supported browser with R7.0 – the other TARGET Services will follow at later point in time.

*OMG on 24 April 2022: the OMG identified no operational impact from the inclusion of CR-769 in the scope of Release R2023.JUN

*CRG on 25 April 2022: the CRG agreed to recommend to the PMG the inclusion of CR-769 in the scope of Release R2023.JUN subject that, in case of changes in the costs, they will have to be reviewed again.

*The CRG on 13 July 2022: Following a reassessment of the CR based on a reduced 4CB testing scope, the CRG agreed to recommend to the PMG the inclusion of CR-769 in the scope of Release R2023.JUN

*OMG on 15 July 2022: Following a reassessment of the CR based on a reduced 4CB testing scope, the OMG recommended to the PMG the inclusion of CR-769 in the scope of Release R2023.JUN.

*PMG on 29 July 2022: the PMG agreed to recommend the inclusion of CR-0769 in the scope of R2023.JUN *CSG on 9 August 2022: the CSG approved the inclusion of CR-0769 in the scope of R2023.JUN.

*NECSG on 9 August 2022: the NECSG approved the inclusion of CR-0769 in the scope of R2023.JUN.

*MIB on 8 August 2022: the MIB approved the inclusion of CR-0769 in the scope of R2023.JUN. *CRG on 28 November 2022: the CRG agreed to approve the wording updates on CR-769.

T2S

Preliminary assessment:

- Financial impact: medium
- Impacted modules: T2S INTF GUI, ESMIG U2A Portal, all CoCo GUIs Impact on other Eurosystem Services or Projects: Due to the to the CR freeze for BBk on CSLD side no cross service impact assessment (CSIA) was performed. There will be impact on CSLD (corresponding CSLD-CR has been drafted)
- Risk Analysis: No risks has been identified during the preliminary assessment
